Presentation Mode

1) Remove the paper blocker from the phone battery.
   a. Take the phone out of the scanner holder.
   b. Remove the back of the phone.
   c. Remove the battery.
   d. Remove the paper blocker.
   e. Put the battery back in.
   f. Attach the phone back to the phone.
   g. Place the phone back into the scanner holder.
2) Turn the phone on.
   a. Press and hold the button on the top right side of the phone.
   b. Careful not to accidently press down the volume at the same time. The volume button is on the left side of the phone.
   c. The phone will then vibrate. Release the power button.
3) Turn the scanner on.
   a. Press either round button on the right or left side of the scanner.
   b. Green lights on the back of the scanner will illuminate indicating the scanner is on.
   c. Pressing & holding either button will turn the scanning laser on. This indicates the scanner is in working condition.
4) Opening the APP
   a. Once the phone has completed its boot cycle you will be presented with the home screen.
   b. Simply press the only icon (Swiftleads) on the screen to launch the application.
   c. A prompt will indicate the scanner needs to be connected to the phone. Press 'OK'
   d. The device will indicate that it has successfully connected to the scanner by playing the sound clip 'You are connected to the sled'
5) Scanning

Presentation Mode
(07h)

a. Simply press & hold either round button on the scanner to turn on the laser.
b. While depressing either round button aim the laser at the name badge's barcode from about 5-6 inches away. Moving the scanner in & out slowly helps read the barcode easier.
6) Session tracking
a. Before scanning you must select the session you would like to scan attendees into from the drop down list in the app.
b. The user must confirm changing the session by selecting 'Yes'
